FRIDAY EVENING, MARCH 5.

WOLVES IN RUSSIA. - Their number in European Russia is estimated at about 200,000 head; and, it scarcely need be said, the havoc they make every year is immense. Information collected by the Imperial Statistical Bureau showed that in the year 1873 the damage so caused in 45 governments of the empire amount. ed in value to seven and ahalf millions of roubles. or about a million and a quarter sterling. The losses are believed, too, to be vastly underestimated. The value of live stock varies immensely in different parts of Russia, and the official estimate is said to have been based on much too low an average per head. In one district of the government of Perm it was reported no damage had been caused by wolves, although it was a well known fact that over 3,000 head of reindeer belonging to the nomads had been destroyed by wolves in a single night In this and in some other instances there was

an obvious desire on the part of the peasants to concoal facts. The destruction is not confined to cattle. In Kazan it is estimated 11,000 head of goese are thus carried off every year; and in Kaluga 2,000 head. Besides large numbers of camely, horses and ponies, 100,000 degrare thus destroyed every year by wolves. In taking these figures into account, it certainly does not appear an exaggerated estimate that the value of the live stock and domestic snimels destroyed ty wolves in Russia exceeds fifteen millions of roubles (two millions and a quarter sterling) every year; and if to this be added the frightful destruction of reindeer belonging to the nomad tribes from the same cause, the total becomes enormously increased. The annual loss of hu-men life by wolves is about one hundred and tifty of all ages.

The Alexandria Gazette, begun in 1799, is the oldest newspaper in Virginia, and it has survived, with few exceptions, all the public presses in America which saw with it the dawn of the nineteenth century. It lives, too, not in decay or decrepit, but full of life and youthful vigor, giving all the news, telling the truth without fear, favor or affection, trenching on the privacy of no man's home, but full to the brim with all public information, and giving daily honest udgments of public men and public measures.

It furnishes the news telegrams of the New York Associated Fress and of Reuter's European agency, being, with but two exceptions, the only paper between Baltimore and Richmond that is thus connected with the groat fountains of the world's nows.

With the coming year all the long tried and improved methods of making a standard newspaper will be continued, with such additional facilities as past experience justifies the proprietor in believing will add to the capacity of the Gazette to serve its readers. It expects to render faithful service to the city, the state and the country by a candid criticism of mon and events in the interest of the people of the Common woulth of Virginia.

The year 1880 will be a period of critical interest in both the Union and the Commonwealth The election of the eighteenth President of the United States will take place, with all the combinations precedent, and counts; consequences and settlements subsequent, will call for record in the coming volume. The developments of the financial situation, which may portend afflu enca and comfort or poverty and privation to thousands, are now in progress, and the columns of the Gazette will note each step as well as chronicle the result. A new and striking foreign policy is among likely events, and the absorbing interest of it cannot be overestimated. In Virginia there is political chaos and industrial and commercial depression. The way out of this quagmire will fill many of these paragraphs with information of rare interest.

To meet all the demands upon it in an exceptional year, the Gazette will be made a WASH-INGTON and RICHMOND NEWSPAPER, as well as an ALEXANDRIA JOURNAL. The Richmond and Washington news of the past year has left little to improve, but yet greater effort will be made to insure absolute perfection in these departments.

The city of Alexandria will find as usual its daily history in each evening's issue, and the intelligence of that section of the Commonwealth which nature has bound to Alexandria by the curvature of its mountains or the courses of its rivers as well as that portion linked to us by the iron bands of railways, will be assidnously chronicled.

The Business and Commercial columns of the Gazette will be filled with the carliest and most exact commercial news, edited with such painstaking care as will render an error, where even slight errors are dangerous, impossible.

The Cattle Markets of all the leading points of the world whose rates affect this market will be quoted, and regular statements of the Baltimore. Georgetown, Washington and Alexandria sales of cattle will appear.

The Flour, Grain and Produce movements will be noted daily, and the sales of the Alexandria and neighboring markets given with accuracy and dispatch. The Grocery and other markets will receive constant attention, and the money or stock markets of the country opitomized for its columns, full details being given to all stocks, &c , which find investors in this section of the country.

The advertising columns of the Canette offer inducements which experience has shown to afford greater returns for a small investment than any other which can be mude.
